TO WHOM IT MAY CONCERN

Pastor Yvonne Anker, founder/director of Hosanna Ministries International and Women in Action is known to me since April 1998.

Although my acquaintance with her is for a short duration, I have been observing her personality and ministry traits.

Pastor Yvonne distinguishes herself as a person of an outgoing character with an exceptional self-image, trustworthy and can cope well with difficult and challenging situation. She is always willing to submit to those in leadership. Her social awareness and sympathetic reaction to human needs especially needs of poor people are remarkable. This is in spite of the fact that she states that in her upbringing she did not receive adequate acceptance and love.

As far as her ministry is concerned she is outstanding when it comes to deliverance ministry especially in relation to abused children and women. This dimension in her ministry is unique. She understands and is sensitive to the plight of the abused people. She can communicate hope and victory to them in a manner that I have never known before. She is committed to the ministry of reconciliation and intercession. I hope and pray that she will be granted space to develop these ministries for the benefit of the Body of Christ and also for the population at large. She has a keen interest in the teaching of Biblical principles. Whenever possible she is willing to avail herself for marketing and promotional ventures, especially for the benefit of the Body of Christ.

She deserves our moral and prayer support. Let us endeavor to encourage and edify her so that her unique God-given ministry will not only blossom but will be beneficial to all.

I thank you.
